*Extremal problems among subsets of a set* (In English)

**Proc. 2nd Chapel Hill Conf. Combin. Math. Appl., Univ. North Carolina 1970, 146-170 (1970).**

[For the entire collection see Zbl 208.00201.]

The authors discuss a large class of solved and unsolved problems on subsets of a finite set. Several new problems and results are stated (without proofs), and the authors tried to give a fairly complete list of references.

Classification:

05D05 Extremal set theory
